### Spring Cleaning Checklist

Leone Ackerly of Mini Maid suggests you focus on these top 10 spring-cleaning tasks:

- Clean your vacuum cleaner and start with a fresh bag.
- Change air filters. (This should be done at least every two months.)
- Shampoo the carpet.
- Clean ceiling fans and light fixtures.
- Pull out appliances (stove, refrigerator, washer and dryer) to clean behind them. Vacuum refrigerator coils and the intake grate.
- Vacuum all curtains.
- Vacuum and rotate all mattresses.
- Move furniture out to dust the walls and baseboards behind them, and vacuum the floor underneath.
- Clean out all closets and cabinets.
- Clean blinds and plantation shutters. Aluminum and vinyl blinds can be washed in a bathtub with warm, soapy water and then placed outside to dry.

### Your Cleaning Arsenal

Make sure you have these supplies on hand, and you'll be ready to tackle most cleaning tasks:

- **Microfiber dusting cloths**
- **All-purpose cleaner (nontoxic and biodegradable)**
- **Mild disinfectant**
- **Toilet bowl cleaner**
- **Non-scratching all-purpose scouring pad**
- **Glass cleaner**
- **Tub and shower cleaner**
- **Toothbrush for scrubbing hard-to-reach areas**
